

Kforce Global Solutions

Capability Statement

Overview & Skill Sets

Kforce Global Solutions, Inc. (Global) is a wholly owned subsidiary of Kforce Inc. and provides full life cycle services for technology projects. Established in 1996, the Global team offers the following capability areas:

- Application & Web Development, Maintenance, and Management
- Legacy Systems Support and Migration
- Infrastructure Upgrades and Support
- Quality Assurance
- Database Management and Migration
- Business Process Management and Development

Global's services typically focus on the following technologies:

- Java™ (Java, Hibernate™, Spring™, Struts™)
- Microsoft® Technologies (.NET, SharePoint™, SQL, ASP.net)
- PEGA™
- Legacy Technologies (MF/DEC VMS™ – DBs, Languages, Utilities, Diagnostic)
- Software Infrastructure (Operating Systems, Email/messaging, Oracle™, Sybase™, SQL)
- Web (WEB 2.0, Flex™)
- QA Tools (HP Quality Center™, Rational Robot™, QTP™)

Delivery

Global delivery is built around leveraging iterative methodologies and well-defined waterfall SDLCs, depending on specific engagement requirements and in-place client processes. Delivery locations typically include a combination of resources deployed:

- Offshore in Global's Philippine Offices
- Offshore in Client Office or Project Site
- Onshore in Client Office or Project Site

Kforce Global Philippine facilities run 24/7. This means that in addition to the offshore benefit of extending the work day to a 24 hour cycle, particularly helpful for QA test and retest cycles, we are able to synchronize support with the standard work days of our client regardless of geographic location. In addition Kforce leverages a blanket L1 visa allowing for temporary relocation (up to 3 years) of Manila experts to onshore project efforts.

Flexibility

Global provides multiple contracting options which can be tailored to meet specific client needs. These include:

- Deliverables Based (Project/Defined SOW)
- Capacity Based (defined headcount or range of headcount, with defined skills/experience)
- Time and Materials
- SLA Based
- Fixed Price contract
- Hybrids

Kforce Global also stands ready to assist with staff augmentation services provided offshore at considerable savings relative to engaging those same resources onshore.
